PRINTER TO THE UNIVERSITY

INTRODUCTION.

THE entries printed in the second part of this volume are of a different character from those contained in the first. The first table is a collection of miscellaneous prices that could not properly be included under any other head, and of scraps of information found among the papers at Brandsby Hall and Castle Howard. Some of the entries are remarkable. The very modest prices paid for the keep of the racehorse, and for the services of the jockey, form a startling contrast to the fee paid for teaching Mr. Mitford the not very difficult art of shaving. Nor can the school fees at Douay be considered high; fencing and dancing seem the only subjects taught, and a considerable proportion of the total is spent on amusements. The year 1782 was one of agricultural depression, and it is the only occasion on which, so far as I have been able to tell, the rents were reduced or abated. Although the books at Brandsby Hall do not show how much was paid per acre, it is evident that the rents had been very much raised in the previous twenty years.

The next four tables were collected by my father, two from the records of All Souls, and two from the newspapers in the Burney Collection. The contrast of prices illustrates the scarcity caused by the great frost;

but if it is not a little fanciful it must represent the prices prevalent in London at a time when the town was cut off temporarily from the outside world. The sixth document is one which was found in an old pocket-book at Brandsby Hall. It was unsigned, and I was quite unable to identify the handwriting, but its genuineness is undoubted. The unfortunate writer had been speculating in Change Alley, and, like so many others, had been severely bitten. Like a careful man, however, he put away the original share certificates, if such they may be called, with the list of his investments, in case they should at any future time turn out to be worth something after all. I have printed some of these, as I believe them to be absolutely unique, and of the greatest interest. The famous account of the South Sea and the other bubbles in Macpherson's *Annals of Commerce*¹ is of course familiar to every one, and most of the companies in which the nameless speculator ventured are given in the list printed in that book. But, unless they were known by other names, some of the bubbles have not hitherto been recorded, while in other cases the price paid is higher than the figure recorded by Macpherson. It will be seen that most of the companies have a plausible appearance, and as a rule are for promoting some form of industry or other. Two are for making salt², three for developing fisheries (for the 'James's permit' is the same as the 'National Fishery'), two for land improvements, and one for developing a river as a navigable waterway. Others are most suspicious, and one would have thought would

¹ Vol. iii. pp. 76-114.

² Unless the company called King George's Salt is the same as the good ship called *Royal George*.

have made even the most reckless pause and consider before he threw his money away, were it not that in the present day schemes yet wilder and less plausible seem to find supporters. The schemes for extracting gold and silver from lead, for the new water engine, for Sir Richard Steele's 'new invented vessell for bringing fish alive and in health from any distant place,' and the making of felt hats and pantiles, suggest the fraudulent promoter to modern eyes and ears. Simplicity abounds in all ages, but even the most charitable view of the affair will not acquit the adventurer from the charge of gambling. The method of forming joint-stock companies in the beginning of the eighteenth century was peculiar, but some of these documents are not even the shares of a company actually in existence. They are only the permits authorizing the holder to subscribe for a company that is to be formed. If the subscription goes forward he has to pay a considerable additional sum; if not, he has nothing but the scrap of paper to show for his money. There is one further point of interest. I have seen it suggested that the 'new invented water engine' was a precursor of the steam engine, but the picture printed on the certificate shows that it cannot have been anything of the sort.

The next series of tables, seven to eleven, is intended to assist the student of prices of labour in the eighteenth century. The first is an assessment of wages by the Justices of the Peace for the West Riding, which I was allowed to copy from the original by the kindness of the Clerk to the Justices. It was repeated several times, generally without alteration. Such assessments of wages are perhaps not quite so uncommon as they were

at one time thought to be; but this particular assessment is of interest inasmuch as it gives in some detail the charges to be made for the conveyance of goods, and the steps to be taken both for publishing the rates and for seeing that they were properly observed. The penalty of imprisonment imposed in 1706 shows, I suspect, that there were many evasions of the law, and the notice was reissued for the last time, as far as I can make out, in 1722. The eighth table is taken from John Mortimer's *Art of Husbandry*, a most useful book for the student of economic history in this period. Mortimer was a man of business in London before he turned farmer, and he appears to have been one of the first to import the accurate and careful ways of the merchant into agriculture. As he farmed in Essex the prices are of course those of the South of England. Laurence's *Duty and Office of a Land Steward*, the book from which the ninth table is taken, is difficult to get, but it is full of useful information. The prices quoted are, I believe, Yorkshire. The eleventh table has been prepared with considerable trouble from the works of Arthur Young. That vigorous and fluent writer in the course of his tours procured many prices of labour, which he recorded from time to time systematically and neatly. He even went so far as to bring the prices together at the end of each of his tours, and to make elaborate and valuable calculations as to the amount of real wages received by the farm hands. But apart from the fact that these were only made on each occasion over a certain part of the kingdom, the tables he prepared are marred by the form in which they were cast, for the places were arranged according to their distance from London. The present list, which, so far as I know, is not to be

found anywhere else in this form, shows each recorded entry under the county in which the place is situated. The counties moreover are grouped according to the divisions adopted by the Board of Agriculture, a system which has immense advantages over the usual alphabetical list.

The twelfth table is copied from the account books of Lord Lovell, and is now preserved at Holkham. These records of one of the first great improvers in agriculture cannot fail to be useful to the student. The footnote on page 636, however, needs revision, in view of events which have taken place since that page was printed. The history is somewhat curious. The manuscript was lent to my father many years ago, and a copy of its contents, which was taken by him, was set up in type in the usual way. It was found, however, to contain a number of errors, only a few of which could be corrected. Lord Leicester was good enough to promise that I might be allowed to re-examine the manuscript, but when search was made for it, it could not be discovered. In despair of being able to check the figures I had sent one sheet to the press, and was about to send another, when the missing document was found carefully put away, as often happens, in a place where it could not be lost, and there overlooked. It arrived, however, in time to enable me to make the required emendations in the other sheets, and now there is only one copyist's error, viz. on page 639, where the figures £10 15s. 6d. in line 4, and £27 4s. 10d. in line 11, should be £10 5s. 6d. and £26 14s. 10d. There are, however, a number of other quotations and calculations which appear to be in error in the original. The prices paid for thrashing and dressing, although given usually by the last, are

wholly irregular, and I can only assume that they vary owing to some cause of which no mention is made. This is rendered more probable by the fact that these accounts are not the actual daily reckonings which passed between the bailiff and the labourer or the tradesman, but a fair copy made in a book for his Lordship's examination.

The last four tables consist of prices of certain stocks, the South Sea Company, the Bank of England, the East India Company, and the consolidated three per cents., in continuation of the tables in Vol. VI. The first of these relates only to the month of December, 1719, and from January 1 to December 26, 1720, on which day the books were shut. The stock stands at 1000 on June 24, 25, 27, 28, 29, 30, and on July 12, 14, and 16. This is the highest price recorded. It never sank below three figures, and not only did it stand as high as 162 on the last day the books were open, but it was actually on that day higher than the day before. The prices of Bank stock begin in 1703, and are continued till 1793. In the case of East India stock, the quotations of the old and the new company are given till March, 1709, after which date the rival companies were united, and the price of the united stock is given till 1793. In the latter part of the century, however, there appear to have been very few dealings, and sometimes no quotation is given for days together, or the same figure is repeated in a way which suggests that the type was kept standing and only corrected occasionally. The three per cents. are quoted from 1729 onwards, although the consolidated stock properly so described only began in 1751. Certain small sums had, however, been borrowed at three per cent., quotations of which are therefore

given, though they are necessarily few and unimportant compared with Bank stock. In spite of the low rate of interest the stock is frequently above par during the earlier years of its existence, and for some time after the consolidation. The causes of its fall in subsequent years are probably the increased trade of the country and the greater opportunities for investment in other directions.

Lest there should be any misunderstanding about the method adopted in printing these quotations it is as well to explain that for each date the full price of the stock is given, but where a second or third price occurs on the same day abbreviations are used. The last unit of the quotation is repeated if a fraction has to be added to a single figure, so that $90\ 0\frac{1}{8}$ stands for $90\ 90\frac{1}{8}$. But if the first price contains a fraction the last unit is not repeated unless the fraction is to be omitted, so that $90\frac{1}{2}\ \frac{1}{4}$ stands for $90\frac{1}{2}\ 90\frac{1}{4}$, and $90\frac{1}{8}\ 0$ stands for $90\frac{1}{8}\ 90$. Again if the change in the figure affects the decimal, the last two figures are given, so that 179 80 stands for 179 180. If the centuple is changed the whole quotation is given. A good example of this is to be found under May 2, 1720, of the South Sea stock, where 430, 10, 30, 5, 40, 50, 60, 50, 40, 25, 0, 5, stands for 430, 410, 430, 435, 440, 450, 460, 450, 440, 425, 420, 425. All the quotations of the South Sea stock were collected by my father. Of the others, Bank stock down to May 6, 1766, East India stock to May 14, 1766, and three per cents. to May 8, 1766, are by the same hand. For the subsequent quotations I am responsible. From which newspapers all the former prices are taken I am unable to say, but on the manuscript table of the prices of Bank stock there is a pencil note in my father's hand-

writing which implies that the figures for 1703 are 'chiefly from the *Postman*.' Another says, 'The newspapers of this period seldom give the prices of stock ; the *Daily Courant* only in 1704. The regular quotation of this and other stocks by the papers begins in 1710, just when the Godolphin Ministry was threatened. It is curious that when the stock was depressed before so seriously in 1705-6, the notices of its price are so few. In early days the dividends were paid very soon—a week or ten days—after the books were shut. As time goes on the process takes from a month to six weeks.' Under the head of 1704 is written: 'The *Daily Courant* gives prices from March 18. The others are generally from the *Postman* and sometimes the *Postboy*.' The following table shows the sources from which the quotations that I have added are drawn.

- 1766, } *London Chronicle* and *Lloyd's Evening Post*.
- 1767. } Occasionally *St. James's Chronicle*.
- 1768. *Lloyd's Evening Journal* and the *London Chronicle*. But the latter is often wanting, and the omissions are generally supplied by the *St. James's Chronicle*, occasionally by the *Westminster Journal*.
- 1769. *London Chronicle* and *Lloyd's Evening Journal*.
- 1770. *Lloyd's Evening Post* and *General Evening Post*. The entries on Oct. 16, 25, 27, Nov. 3, 20, are from the *Middlesex Journal*.
- 1771. *General Evening Post*, and *Gazetteer and New Daily Advertiser*, but several quotations are from the *Public General Advertiser*.
- 1772-80. *General Evening Post* and *Public Advertiser*.
- 1781-5. *Public Advertiser*.
- 1786-92. *Public Advertiser*, supplemented by *Morning Chronicle*.
- 1793. The information was extracted from many papers. The *Public Advertiser* was in a transition stage, becoming the *Oracle* early in 1794, and the *Morning Chronicle*, the series of which is nearly complete, does not give prices of

stock for each day. The quotations for the first three months are extracted mainly from the *Morning Chronicle*, supplemented by the *Public Advertiser*. For the rest of the year the *Public Advertiser* was used as far as possible, and *The Diary* or *Woodfall's Recorder*. In this year, however, the latter paper appears to have dropped out of existence through the retirement of Woodfall. The blanks, and these were numerous towards the end of the year, were filled in by extracts from the *Morning Chronicle* and the *Morning Herald*.

I should mention that some of the entries for 1777, 1778, and all of 1779 to 1789, part of 1791, and all 1792 and 1793, were extracted for me by Mr. Richard F. Taylor.

It will be noticed that in many cases two papers have been used. This is due to the fact that most of the papers of this period preserved in the British Museum were not daily papers, but appeared only three times a week. The papers that appeared oftener either did not record the prices of the stocks, or they are provincial papers, and therefore not to be trusted in such a case for information first hand, or they are represented by a few scattered numbers only. The papers that passed under the name of Lloyd on the other hand were definitely commercial papers, endeavouring to give full and accurate information on such subjects. They labour, however, under this disadvantage, that they are mostly evening papers, and apparently give the prices only up to one o'clock. It is possible therefore that occasionally further fractional changes may have taken place which are not recorded. Had any serious change taken place, I am confident the fact would have been noticed in the next issue of the paper. A study of the figures, moreover, will show that sometimes very obvious and startling misprints occur, and it has been necessary often to question the accuracy of some of the statements. At

other times the paper has been cut by the binder, or it has crumbled away, or the ink has smeared, or for some other reason the figure cannot be given at all, or only with incertitude. In other places there is only too much reason to believe that the figure has been repeated from day to day out of carelessness or indifference. There is also the undeniable fact that at times wholly different figures are given for the same day by two newspapers. It must be understood therefore that the absolute accuracy of these prices cannot always be depended upon, especially in times of peace and quiet. They are, however, undoubtedly right in times of excitement or rapid change.

With these tables the *History of Agriculture and Prices in England* is brought to a conclusion. Planned in the year 1860, the work has occupied some forty-two years of preparation and publication, and even now it is not completed in the way that its author intended. The difficulty of finding the material, the immense mass of figures that has eventually been found, and the labour of transcribing, arranging, and tabulating, has required more time and more diligence than was imagined when the work was begun. It has worn out one life, and has claimed several years of another, and yet the subject is but sketched in outline. For the picture to be painted in the fullest detail the hand of the artist is wanted, with the application, the imagination, and the sympathy of the designer who has gone, but among the many books that are published yearly there will, I trust, be some in the preparation of which the simple records in these volumes will be found useful. The representation of the economic as well as the political aspect of the lives of our ancestors is worthy of the consideration of

the historians of a nation which has laboured with success for the furtherance of trade and agriculture, and for the well-being of its humbler citizens, as well as for the vanities of conquest, or the enrichment of its rulers.

NOTES FROM THE CHOLMELEY AND HOWARD PAPERS.

1701.

HOWARD PAPERS.

Feb. 16.

Paid at the church when my Lord received the sacrament, and paid for the certificate, 15s.

Paid for taking the oaths in the House of Lords, 2s.

1702.

HOWARD PAPERS.

April.

Paid for the hire of a six oar barge, 3*l*.

May 2.

Paid charges of the bonfire on the Coronation night, 2*l*. 17s.

Paid charge of 'Godolphin's'¹ keeping at Guildford, 3*l*. 17s. 9*d*.

Given Richard Robinson that rid Godolphin, 5*l*. 7s. 6*d*.

1703.

HOWARD PAPERS.

Nurse for Lady Harriet, two months, 4*l*.

To a barber teaching Mr. Mitford to shave, 2*l*. 3s.

July.

Paid a Queen's licence for my Lord's absence from Carlisle, 12s.

1704.

HOWARD PAPERS.

March 20.

Paid his Lordship's bounty to the Protestants of Auvergne, 10*l*.

Oct. 30.

Lady Betty and masters expenses to my Lord Mayor's show, 8s. 6*d*.

1745.

COXWOLD.

Sept. 28.

Paid Mr. Preston, Lord Falconberg's first subscription for the defence of his Majesty and Government, 100*l*.

1746.

COXWOLD.

Jan. 25.

Second subscription for raising and paying forces for the defence of the City of York, 100*l*.

March.

Sent to London, 525*l*.

Cost of carriage by coach, 8s.

1750.

Fine in Michaelmas term, 1750.

Peter Johnson the elder to accord with Francis Cholmeley, Esq., for the manors of Brandsby and Stearsby, 20 messuages, 10 cottages, water corn mill, 100 acres of land, 200 acres of meadow, 1500 acres of pasture, 150 acres of wood in Brandsby, Stearsby, Foulrice, to the parish of Brandsby, post fine, 16*l*. 10s.

Received the 2nd day of Oct., 1751, of Francis Cholmeley, Esq., by the hands of William Chapman,

¹ A horse entered for the Guildford Great Plate.

the sum of sixteen pounds and ten shillings, being the post fine due to his Majesty on the above fine. I say received by me, J. Wilmer, under-sheriff of Yorkshire.

1763.

Brandsby Tithe = 45*l.* 2*s.* 3*d.*

1767.

Mr. Cholmeley's sons' year's a/c. at Douay.

Year's board, 25*l.*

Pocket and extraordinaries, 100 *liv.* 18*s.* 3*d.*

Dancing 6 months, 18 *liv.*

Treat to schoolfellows at Christmas when king, 60 *liv.*

Carts for journey to Cambray and the neighbouring towns at different times, 78 *liv.* 18*s.*

Fencing, 8 *liv.* 8*s.*

Total 266 *liv.* 1*s.* 3*d.* = 11*l.* 18*s.* 6*d.*

1770.

Rents at Whareham Cottages—

A. Gale, 6*s.*

W. Taylor, 3*s.*

F. Luthrington, 3*s.* 4*d.*

J. Botrill, senior, 5*s.*

F. Luthrington, junior, 6*s.*

R. Marshall, 3*s.* 4*d.*

A. Rousby, 4*s.*

J. Briggs (?), 7*s.*

J. Hollin, 3*s.*

1773.

BRANDSBY.

Duty paid on chaise for private use, 4*l.*

Duty on 200 oz. of silver plate, 10*s.*

1775.

74 oxen killed for family's use at Castle Howard.

1776.

45 oxen killed between Jan. 1

and Sept. 5, at Castle Howard for family's use.

Sir Ch. Bucks estate at Whareham Grange and Whareham Piercey = 1773 ac. 0 r. 32 p., amounting to yearly value of 813*l.* 18*s.* 5*d.*

1777.

Duty on two four wheeled chaises, 10*l.*

1779.

Year's duty on servants at Castle Howard = 10*l.* 10*s.*

Sept.

Subscription for raising 100 men for the North Riding of Yorkshire, 100*l.*

1782.

A proportion of the rents are returned to the tenants at Brandsby.

1788.

11 acres 3 roods 24 perches land bought by Francis Cholmeley @ acre 35*s.*

1790.

Taxes.

81 windows, 4*l.* 8*s.* 9*d.*

5 male servants, 2*l.* 3*s.* 9*d.*

5 female servants, 12*s.* 6*d.*

8 horses, 20*s.*

2 carriages, 3*l.* 10*s.*

1 waggon, 1*s.*

Additional duty—

On horses, 17*s.* 6*d.*

On carriages, 10*s.*

1798.

BRANDSBY.

'The custom of entry there (Yorkshire) is to the arable on the 13th February, pasture 5 April, 6 meadow and house 5th May.' Extract from correspondence.

(f) New invented Vessell for the bringing Fish alive and in health from any distant place	1/1200 of whole stock.	1	5	0	each

Also the following, which are printed *in extenso* as being of greater interest:—

- (g) The Bearer hereof is entitled to 1000 pounds in Copartnership for improving the CLOATHING TRADES and making of FELT HATS in Great Britain: and for making, glazing and leading PANTILES; on payment of one pound or more as the Managers and Directors shall appoint; for which a proper receipt shall be given by an Eminent Banker, and the Money return'd on Demand.

WM. SMITH, Secretary.

- (h) This certifies that¹ Lord Clifford is entitled to five thousand pounds stock in the National Fishery of Great Britain and Ireland being part of ten millions intended to be subscribed at Sadlers Hall for carrying on the same.

N.B. Fourteen Days Notice will be given where to pay the 16 *per cent.* into the Bank after subscription.

- (i) ² The Bearer is Intituled to a subscription of One Thousand pounds towards raising a joint stock more effectually to carry on a Trade to the North Seas.

- (j) 2 1200th parts of the good ship called the Royal George, of 30 guns and Burthen of 300 tons or thereabouts 1721.
consideration 10*l.* 10*s.*

- (k) Received £4 rate of 8/100 for £1000 for New invented water engine, 1 share.

(This last is decorated with a picture of the 'new invented water engine,' which resembles an ordinary manual fire engine.)

¹ There are four of these. The name which is in MS. varies.

² There are four of these certificates.

VII.

AN ACCOUNT OF THE WAGES APPOINTED BY THE JUSTICES IN THE WEST RIDING OF YORKSHIRE.

The following assessment of wages was copied by me from the records of the Justices of the Peace, preserved at Wakefield.

Servants' wages. Pontefract, 6^o April, 1703.

A limitation and appointment of the Rates of the Several Wages for the Artificers, Handicraftsmen, Labour^{rs}, Servants, Workmen, and Apprentices of Husbandry within the West Riding of the county of York made, continued, and agreed upon by the Justices aforementioned the day and year aboves^d according to the tenure, forme and effect of the several Acts of Parliam^t in that case (?) made and provided.

A baylife or foreman of Husbandry that is hired with a Gentleman or with yeoman (?) that doth not labour himselfe, but putteth his whole charge to his serv^t Shall not take by the Year above four pounds ten shillings, and a livery or ten shillings for itt.

A chief Serv^t in husbandry to a yeoman (?) or husbandman that can Mow and Sow and do other husbandry well shall not take for his wages with meat and drink above three pounds and ten shillings.

A miller that is skilful in mending of his Mill shall have by the year four pounds, and others that are not so skilful shall have by the year three pounds.

An Ordinary Servant in Husbandry that can mow and plow well shall not take for his wages by the year above three pounds, and every other com^on serv^t in Husbandry Shall not take by the year above two pounds five shillings.

A young man between the age of twelve and sixteen shall not take by the year with meat and drink above one pound sixteen shillings and eight pence.

A woman servant that taketh charge of Brewing, Baking, Kitching, Milkhouse, or Mauling that is hired with a Gentleman or a rich yeoman (whose wife doth not take the pains and charge upon her) shall not take wages by the year with meat and drink above forty shillings.

A woman Serv^t that serveth an husb^dman, a Farmer, or any other woman Serv^t shall not take by the year with meat and drink about thirty shillings.

A young maid Serv^t not about sixteen years one pound.

Harvest work.

A mower of Grasse or corne shall not take by the day with meat and drink above six pence, and without meat and drink twelve pence.

A Shearer of corne shall not take by the day with meat and drink above six pence and without meat and drink twelve pence, a woman

fourpence with meat and drink, and sixpence without, for an acre of meadow by the statute measure twelve pence.

A Haymaker, Weed, or Looker of Corne being a man shall not take by the day with meat and drink above four pence and without meat eight pence. A woman two pence with meat and four pence without.

Labourers of Husbandry.

Every man Labourer for ditching and pailing, Railing, Hedging, Threshing and other Labourers, from the feast of St Martin till Candlemas shall not take for wages by the day with meat and drink above two pence and without meat not above sixpence, and from Candlemas untill the feast of St Martin not above fourpence by the day with meat and drink and without meat and drink not above eightpence.

No man shall [take for] sashing (?) or setting any ditch having quick wood ready laid beside him which ditch is more than one yard and a quarter broad and a yard deep above Six pence for a rood, and when the ditch is bigger or lesser more or less according to the quality or rate.

No man that scoureth a ditch threespade bredth and two depth shall take for one rood scouring above two pence, and for staking one spade Gripp in breadth and depth for every rood not above one penny.

No man shall for making a rough dry Stone wall having the stones laid by him which wall is one yard and a halfe high, and half a yard thick, take above twelve pence a rood without meat and drink.

Artificer or Handicraftsmen.

A Master mason that taketh charge of a man's building having under him one two or three Men that have been two or three years at the Occupation shall not take for wages for himself by the day at any time of the year with meat and drink above six pence and without meat and drink not above twelve pence, and for every one that worketh under him he shall not take by the day with meat and drink from the feast of St Michael the Arch Angel to the twenty-fifth of March above five pence and without meat and drink not above ten pence. A Master Carpenter who taketh charge of a building that hath one or two or three men under him that hath been two or three years at the Science shall not take for wages by the day without meat and drink above twelve pence and with meat and drink not above sixpence. A Master Mill Wright eightpence, his serv^t twelpence¹. A master or other that hath but one man or none and that are not master of a charge of a building but of other worke as hewing Squaring walling or such like, Limeburner, Cooper, Bricklayer, Thatcher, Brickmaker, Slater, Tiler, shall not take by the day for wages with meat and drink from the Annunciation of the blessed Virgin Mary untill Michaelmas above sixpence, and without meat and drink not above twelpence, and from the feast of St Michael the Arch Angel until the twentyfifth day of March with meat and drink not above fourpence and without meat and drink not above tenpence.

Colliers.

No collier² or workman that is skilful in getting coals shall take wages by the day without meat and drink above twelve pence.

¹ Without meat or drink, 1706.

² Or clothier in later editions.

No Filler or Barrower of Coals shall take for his wages by the day without meat and drink above ten pence.

No Banksman or Drawer upp of Coals shall take for his wages by the Day without meat and drink above eight pence.

Grav^{ts} of turfs or peats by the day with meat and drink four pence, without meat and drink eight pence.

Ordered

Pontefract, 6^o April, 1703.

That the Justices of the peace at their monthly meeting twice in the year at least require the petty Coñbles to give an Acc^t what number of men and women servants each Inhabitant within his Constabulary hath and what quality and what wages every master gives to every particular Serv^t; that one or more of the next Justices of the peace be p[']sent att the Statute or Petty Sess^s and that the Bayliffe of every Hundred and their Deputies together with the Chief Coñbles and all the petty Coñbles be su[']mōned to give their attendance at the s^d petty Sess^s, and that the s^d Sess^s be kept only in the month of October next upon such dayes as the Justices of the yeare shall appoint.

That a copy of these rates be sent to every Township and the same be published in every market Town att the Market Crosse between the houres of twelve and one upon four market days together next after the feast of S^t John Baptist by the Bayliffe of the Hundred, and likewise that the petty Conbles go to every particular family and declare the contents of these orders and the Rates of Wages, and that these Orders and Rates be by the several Conbles of every Church, Chappell or Towne fixed upon the s^d Church or Chappell the Sunday before the s^d Statute or petty Sessions.

And to the end that Masters and Serv^{ts} may not be ignorant of the Law they are to take notice that no Master shall turne away his Serv^t without Law^l cause, to be allowed by the Justices of the peace or a quarter of a years warning given before the end of his terme under the forfeiture of forty shillings, that no Serv^t shall depart from his masters service without lawful cause or a quarter of a Year Warning given before two witnesses before the end of his term under pain of imprisonment.

That no master shall give greater or less wages than are appointed by this order under the forfeiture of five pounds, that no Serv^t betwixt twelve and sixteen years of age not lawfully retained shall refuse to serve in husbandry nor shall take greater wages than one appointed by this order under the pains and penalties that the Laws in that case do inflict.

That no servant shall depart from his Service without a testimoniall according to the Statute under the Coñble and two honest Householders hands where he last lived, nor be retained without shewing such testimonial under pain of Imprisonm^t and that no Master shall [? refuse] a Serv^t with such a testimonial under the forfeiture of five pounds according to the statute made in the fifth year of Queen Elizabeth, which said testimonial by the said Statute is to be in these or the like words:

West Ridd. } Com. Ebor. }	Memoran ^d that A. B. serv ^t of C. D. of E. husbandman in this Ryding is licensed to depart from his Master and is att liberty to serve elsewhere according to the statute in that case made and provided. In witness whereof wee who are Inhab ^{ts} of the s ^d Town of E. have hereunto sett our hands the — day of — In the year of o ^r L ^d 170—.
------------------------------	--

And lastly it is ordered that such certificate or testimonial shall be delivered unto the ^{s^d} Serv^t and shall also be registered by the Parson, Vicar, or Curate of the ^{s^d} Parish where such Master, Mistress or Dame doth or shall dwell taking for the doing thereof two pence and not above.

Carriers Wages.

Pontefract, 6^o April, 1703.

By virtue of an Act of Parliament Intituled an Act for the better repairing and amending the high ways and for setting the Rates of the Carriage of Goods, Her Mat^{ties} Justices of the Peace at the ^{s^d} Qutr^s Sessⁿ assembled have assessed and rated the prices of Land Carriage of Goods whatsoever to be brought into any place or places within this Ryding by any Common Waggoner or Carrier at the respective Rates and Prices following, viz.

From London to Doncaster, Rotherham, Sheffield, Barnsley, Pontefract, Wakefield, Hallifax, Leeds, or any other Market Town or other place within this Ryding as far distant from London as Leeds is, from May day to Michaelmas fourteen pence per stone and from Michaelmas to May day eighteen pence per stone, and no more, and for every odd pound five farthings and no more throughout the whole year.

From London to Burrowbridge from May day to Michaelmas sixteen pence per stone and from Michaelmas to May day nineteen pence per stone and for every odd pound three half pence and no more throughout the whole year.

From London to any place within this Ryding that is distant from London twenty miles more than Leeds two pence halfpenny more than the said fourteen pence, and eighteen pence and so proportionably for a greater or less distance.

From York to Wakefield or to any place that is twenty miles distant from Yorke two pence per stone.

From any other place out of this Ryding to any place or places of twenty miles distant in this Ryding and from any other place to another of the said distance within this Ryding two pence per stone and proportionably for a greater or less distance.

Carriage by Carts.

From Leeds to Selby or Turnbridge or from Wakefield to Selby or Turnbridge and from any other market town or place in this Ryding to Selby or Turnbridge as far distant from the same as Leeds is, a truss containing four horse packs and proportionably more or less from May day to Michaelmas six shillings and six pence.

From Michaelmas to Christmas for four horse packs proportionably more or less ten shillings and six pence.

From Christmas till May day for four horse packs and so proportionably more or less for a greater or less distance fifteen shillings and six pence.

From Selby or Turnbridge to Leeds and Wakefield, or to any other market town or place in this Ryding as far distant from Selby or Turnbridge as Leeds is from May day till Michaelmas twelve shillings per tunn.

From Michaelmas till Christmas eighteen shillings per tunn and from Christmas till May day twenty-four shillings per tunn, and so proportionably more or less.

And it is ordered by this Court that the ^{sd} Rates of Assessment be forthwith printed and sent to the several Mayors and other Chief Officers of each respective Markett Town within this Ryding to be hung upp in some public place in every Market Towne to which all persons may resort for their information and so (?no) such Coñon Waggoner or Carrier shall take for Carriage of Good or Merchandize above the rates and prizes hereby Sett upon pain by the S^d Act to forfeit for every such offense the sum of five pounds to be levied by distresse and sale of his or their goods by warrant of any two Justices of the Peace where such Waggoner or Carrier shall reside in manner as by the said Act is appointed to the use of the p'tyes grieved.

This regulation is republished practically verbatim on the 25th April 1704, and on the 17th April 1705. On the 2nd April 1706 it is again published, the substance being the same though the phraseology is considerably changed. The following additions are also made:—

From London to Settle from Mayday to Michaelmas eighteen pence per stone, and from Michaelmas to Mayday two and twenty pence per stone and for every odd pound throughout the year seven farthings and no more. . . .

From York to Wakefield the rate is twopence halfpenny. . . . A master Taylor shall take by the day with meat and drink not above fourpence and for his servant not about two pence. . . . That if any Person shall by any secret ways or means directly or indirectly retain or keep any servant, workman or Labourer or give greater wages than are hereby appointed he shall suffer imprisonment by the space of ten days without Bail and shall forfeit five pounds.

That if any person shall be retained and take greater wages than are hereby set he shall suffer imprisonment for one and twenty days without Bail.

Resolutions are passed on the 22nd April 1707, the 13th April 1708, and in April 1722, ordering a reissue of the assessment.

VIII.

A TABLE OF THE RATES OF WAGES, EXTRACTED FROM
THE ART OF HUSBANDRY BY JOHN MORTIMER, F.R.S.,
ABOUT 1707 (VOL. I. PP. 380-385 AND 388-391).

Carpenter's work.

Carpenter's work is measured by the square, that is ten Foot each way, or one hundred square Feet; at *London* they will build a House four Story high for forty Pounds a Square, if built with Oak-Timber, and thirty Pound a square for Fir; that is to find all Materials, and all the Carpenters, Bricklayers, Plaisterers and Glasiers work; and considering the Price of Timber, and workmanship in the Country, and that the Houses are but three Stories high, and that they have all their materials laid in, that is, carted for them, I cannot think but a good House may be built for twenty five pound a Square in most places and in some cheaper.

The Carpenter's Work to frame a House in the Country, where you find Timber, is seven or eight Shillings a Square, if the Carpenter pay the Sawing; if not 'tis four shillings and sixpence a Square.

The Carpenter's Work to build a Barn in the Country that hath one single Stud, or one heighth of Studs to the Roof, is two shillings a Foot, but if it have a double Stud and a Girt, 'tis worth two Shillings and Sixpence; that is, to measure one side and one end; as suppose a Barn sixty Foot long, and twenty Foot broad, that is eighty Foot; this, the Carpenter's Work to hew the Timber, saw it out, frame it and set it together, will come to, at two Shillings and Sixpence a Foot, ten Pound, you finding the Timber.

Bricklayer's Work.

Bricklayer's Work at *London*, where a Bricklayer hath two Shillings and Sixpence a Day, a labourer twenty Pence, and that Bricks are fourteen shillings a Thousand, Lime Fourpence halfpenny a Bushel, and Tiles two Shillings and Sixpence a hundred; for the Bricklayer to find the Bricks, Mortar, Scaffolding etc., for a House is five Pound a Pole-Square, that is sixteen Foot and a half; but for Walling four Pound ten Shillings a Pole, if the Bricklayer finds all Materials, is enough; but for his Work only, 'tis one Pound two Shillings a Pole, that is two hundred seventy two square Feet, and a Brick and half thick; in the country they will build a wall for eighteen shillings a Pole, supposing the Wall to be a Brick and a half thick.

The Bricklayer's Work is measured by the Pole-Square, that is deducting out all Windows and Doors in the Wall; but if you are to measure a Wall, as suppose of one hundred and twenty Foot long, and thirteen Foot three Inches high, you must multiply the one by the other,

and it will make 1590 Foot, which divide by $272\frac{1}{2}$ makes five Poles, or Rods, three fourths, and forty two Feet; but if 'tis more or less than a Brick and a half thick, you must reduce it to a Brick and a half by multiplying the length and the height by the Number of half Bricks that the wall is in thickness; dividing the Product by three, and the quotient by $272\frac{1}{2}$. Chimneys are commonly done by the Hearth. And note, that one Brick and a half thick is fourteen Inches, two Bricks is one foot and a half, and that four thousand five hundred of Bricks will do a Pole Square of walling one Brick and a half thick, and twenty five Bushels of Lime where the Sand is good, that is, where 'tis of a large rough Grain, and not mixed with Soil.

Tiling.

Tiling is measured by the ten Foot Square, the workmanship of which is three Shillings and Sixpence a square in the Country; to find all but Tiles is twelve Shillings, and to find Tiles and other materials is one Pound six Shillings a square. Three bushels of Lime will do a square of Tiling, but I prefer Loam and Horse-dung mixed together, and laid about the middle of the Tile so as not to touch the Pins or Laths, nor to be so near the point as to wash out, because Lime is too corroding, being apt to make the Tiles scale, and to grow with Moss.

Slates are a light covering for Houses, and in *Northamptonshire* are ordered thus: They dig the Stone about *Michaelmas*, and pile it up in Stacks, which they cover with Sand till the Frost comes, and then they take them down and lay each Stone flat on the ground, and sprinkle Water on them, always keeping of them moist: For should they let the Stones lie exposed to the Sun and Wind they would not cleave. A piece of flat Stone two Inches thick, will run perhaps into twenty Slates, according to the Clefts made by the Frosts, which the frequenter they are, the clearer and finer the stones cleave.

Underpinning for the Bricklayer to dig the Foundation where 'tis a Brick thick and a foot deep, is a Penny a foot, and where 'tis two foot and a half running measure, 'tis Two pence a foot, and so proportionable.

Bricks.

Bricks may be made of any Earth that is clear of Stones, even Seaworse, but all Earth will not burn red. To burn a Clamp of Brick of sixteen thousand, they commonly allow seven Ton of Coals, twenty hundred to a Ton, or nine hundred of Faggots of about three foot long, and to some Earth ten Bushels of Coals to a thousand of Bricks. Bricks ought to be nine Inches long, four Inches and a half broad, and two Inches and a half thick; a yard Square of Clay will make seven or eight hundred of Bricks, and the workmen have commonly six Shillings a thousand to make them.

Plasterers.

The Plasterers work is commonly done by the Yard Square for Lathing; Laying and Setting is Eight pence a Yard, rendring on a Brick wall is Threepence a yard, stopping and whitening a Penny a yard; but Lathing, Laying and Setting with Oak-Laths is ten or twelve Pence a yard.

To daub a Partition-wall with Clay on both sides is three Pence a yard, and to roughcast it without, and render it on the inside four Pence a yard in the Country.

Heart-Laths of Oak are one Shilling and ten pence a Bundle or Hundred.

Sap-Laths of Oak are one Shilling and eight Pence a Bundle.

Fir-Laths are twelve Pence a Bundle.

Laths of five Foot long are an hundred in a Bundle; of four feet long one hundred and twenty; and from half an Inch to an Inch and half thick of each sort but the Fir-Laths.

A Bundle of Laths will do a Square of Tiling, and five hundred of Nails.

Sawing of Timber is from two Shillings and Eight pence to three Shillings a Hundred, which they measure in the middle of the Tree; and suppose a Board to be ten Foot long, and one broad, one cut is reckoned so many Foot.

Thatching.

Thatching with Straw is done from two Shillings and sixpence to three Shillings a Square, and with Reed four Shillings a Square. Two good load of Straw will do about five Square, the Square being a hundred square feet; and a thousand of Reed will cover three Square of Roofing which costs about fifteen or sixteen Shillings, both which Thatchers most commonly tie on with withs, but old pitched ropes unwound are much cheaper, and more lasting to tie with.

Digging.

Cellars, Foundations of Buildings etc. are commonly done by the yard solid, which contains twenty seven square Feet, and is usually counted a Load; and therefore the Dimensions being given in Feet, multiply the length by the breadth and the Product by the Depth, dividing the last Product by twenty seven, the quotient will give the Contents in Solid yards.

Glaziers work is done by the Foot-square. *English* glass is sixpence a Foot, *French* glass one Shilling, and Crown Glass one Shilling Sixpence a Foot; to take down a quarry of Glass to scowre, sodder, band, and set it up again, is three Half pence a Foot.

Pales.

In the Country we find six Foot Pale, Post, Rails, Nails, and workmanship is fourteen Shillings a Pole; a five foot Pale is twelve Shillings a Pole, and a four foot Pale is ten Shillings a Pole.

Cleft Pales are worth eleven Shillings a hundred, 120 Pales of four foot long making a hundred, 100 of five Foot, and 80 of six Foot long to the hundred.

Posts hewed ready for four foot Pales are worth twelve pence a Post, for five Foot eighteen pence. Rails by the Pair of nine foot long are eighteen pence a Pair; and of ten foot twenty pence.

Timber of about twelve Inches girt is best for Pales or Laths. A Ton or forty foot of good clear Timber, that will cleave well, will make about three hundred of five foot Pales; and four hundred of four foot.

But a Ton of Timber will make about 440 foot of an Inch Board, which if cut into fit lengths, will make 80 five foot Pales, 100 four foot,

and 133 three foot, each a Foot broad, which in paling will reach three times as far as the like number of Cleft Pales.

To cleave Pales is 12*d.* the hundred.

The space between Lath and Lath should be three Inches; 7 or 800 of Tiles, 100 of Laths, and 500 of Nails will do a Square of Tyling; and a load of Straw will do about a square of Thatching.

OF SEVERAL SORTS OF WORKS BELONGING TO HUSBANDRY COMPUTED ACCORDING TO THE WORKMAN'S WAGES OF FOURTEEN PENCE A DAY IN SUMMER, AND TWELVE PENCE A DAY IN WINTER.

Of Plowing and Harrowing.

Of Plowing and Harrowing. A man cannot well plow in stiff grounds above an Acre in a Day of Lays, or Land the first time it is fallowed, but where Land is broke up already, if the Land is not miry, he may plow an Acre and half, and in sandy light Lands two Acres. In stiff Clays they may plow and sow one acre of wheat, and an acre and a half of Barley or Oats, and in light Lands double as much with one Team of Horses; but an Ox-Team cannot do above Two-thirds of that quantity.

The Price for plowing of Land with us is four Shillings an Acre, for each striking of it over two Shillings an Acre, and for harrowing once in a place, six Pence an Acre; but if 'tis Land not plowed before, 'tis worth seven Shillings an Acre. The charges of keeping an ordinary Team of Horses, where Oats sell for ten Shillings a Quarter, and Hay at twenty Shillings a Load, the countrymen reckon about fifty pounds a year.

Of Reaping and Mowing.

Of Reaping and Mowing of Corn. One man with a Binder may reap an Acre of Wheat, and something more of Rye in a Day, if it stands well; or one man alone may reap and bind half an acre; and of Pease, Vetches, etc., one Acre. For making up of Sheafs of Oats or Barley, one man will bind as much as another can mow, and that from two to four Acres in a day, if thin.

The common allowance to a man for a Month's Harvest, if you find him Victuals and Drink, with us is thirty Shillings. But if he finds himself fifty Shillings a month, where a man has fourteen pence a Day in Summer, and twelve pence in Winter.

The Price of Reaping and Binding of wheat by the Acre is four Shillings, if weedy and laid five Shillings an Acre; of Rye three Shillings and sixpence or four Shillings an Acre; to mow Oats is one Shilling an Acre, and to make them fit to Inn is one Shilling an Acre more; to do the same for Barley is worth two Shillings and sixpence an Acre; Bullimond is two Shillings and sixpence; Pease and Tares four Shillings an Acre.

Thrashing.

Of Thrashing of Corn. A man may thrash four Bushels of Wheat or Rye, six Bushels of Barley or Oats, and five Bushels of Beans and Pease in a Day, if the Corn thrash well.

Price.

The Price of thrashing of Corn is, for Wheat, from Threepence to Fourpence a Bushel; for Rye from Two-pence to Three-pence; for

Oats from Twelve-pence to Fourteen-pence a quarter, and for Barley the same.

Of Digging of Land. A man may dig four or five Square Pole in a Day of Garden-ground a Spit deep, that hath been dug already; and he may dig three Pole or more to fill into wheelbarrows, and something better than two Poles into Carts, if 'tis good digging ground. The common Price for digging of Garden-ground is fourpence a Pole, because they expect better Wages for Garden, than other work, else Threepence a Pole is good Wages. To dig Ground a Spit deep, and to fill it into wheelbarrows is worth Four-pence a Pole, and into carts Six-pence a Pole.

Of Hedging and Ditching. A Man may Ditch and Quickset three Poles or more in a day, where the Ditch is three Foot wide, and two Foot deep.

A man may make a Hedge five foot high, bind it well, and lay it thick, and do two Pole in a day; if lower he may do double.

The Price of Hedging and Ditching, to make a Hedge and lay the Quick is Threepence a Pole.

To make a Hedge and cleanse a Ditch, the common way is Five-pence a Pole; but if he plash it well, and cleanse the Ditch two spit deep, and sets it with Quick where any is wanting, 'tis worth from Six pence to Eight pence a Pole.

To lay a Hedge and bind it well, and to make a new Ditch of three Foot broad is Twelve pence a Pole, and in very stony Ground Fourteen pence a Pole, and the Workmen find Quick and plant it and make a new Hedge with Bushes.

Of making of Banks. They are measured by the Float or Floor, which is eighteen Foot Square, and one deep, which contains twelve Cart-load in good mould. A Man will fill into wheelbarrows a Floor and half in a Day, which will require three Men to carry away in Barrows, and to trim and ram the earth.

Note, that of what depth and breadth you make your Ditch, the Bank will be near of the same height and breadth. In the marshes they dig a Ditch ten Foot wide at the top, and six in the bottom, and four foot deep, at two Shillings a Pole, reckoning twenty one Foot to the Pole.

To measure a Ditch take the length, and for the breadth see how wide 'tis at the bottom and at the top, and half it; as suppose a Ditch six Foot wide at the top, and four at the bottom, which makes ten Foot, the half of which will be five Foot, which multiply by the length and you have the contents of the Ditch.

To mow Grass. A Man may mow in a day an Acre of Meadow; but if it stand well and be even, he may mow an Acre and a half; and if 'tis up-land meadows, and the Grass thin, he may mow two Acres in a day.

To cut Grass, and to make it Hay fit to carry in, is worth in Meadows three Shillings and six pence an Acre, and in up-lands from three Shillings and six pence to four Shillings an Acre. Only to mow in Meadows is one Shilling and six pence an Acre, and up-lands from twenty pence to two Shillings an Acre.

IX.

AN ACCOUNT OF THE PRICES OF LABOUR ABOUT 1727,
FROM EDWARD LAURENCE'S 'DUTY AND OFFICE OF
A LAND STEWARD.' (Second edition, pp. 207-218.)

A particular Account of the Prices of the several artificers' works which relate to Ordinary Buildings, and the Repairs of Farm Houses, Mills, etc. Also, the prices of the several sorts of works relating to Husbandry, computed according to Labourers' wages in most parts of the North, at twelve pence a day in Summer, and nine pence in the Winter.

N.B. As Labourers' wages are something more in the South of England, and something less in the more Northern parts, so 'tis easy for every steward to adjust a price in proportion to Labourers' wages in the several parts. Also if any new sort of work is to be done, not mentioned in the following particulars, the steward's best way is to hire a good Labourer and stand by him the whole day, to see that he does a good day's work, and then to measure the same in order to see what it is worth.

The price of Ordinary Buildings and Repairs of Farm houses in the Northern parts of England.

N.B. A rod is suppos'd to contain 21 foot in length, which is the dimensions in most parts of the North; but if in other parts of England the customary Rod shou'd be more or less, then the Rule of Proportion must be used. 'Tis also suppos'd that all Materials are found, and laid at hand for the workmen (except the glazier's) which is much the best way, for workmen sometimes are apt to impose, and use bad materials.

Masons Work.

Hammer'd Double walling 22 inches thick, of middling Freestone, containing a rod in length, and three foot high, which is called a Rod of mason's work, may be done for 5s. 6d. Coarse flagging of the forementioned stone being rough hammer'd may be done for 1s. 4d. a superficial yard. Door Jaumes and Window Jaumes of Hewn work of the forementioned Stone may be done for 3d. a superficial foot. The price for carrying up chimneys is conformable to the height of the Building; which, if of a middling height, may be done for about 5s. a story for each chimney, and 3d. a foot for the chimney tops of hewn stone.

Paving work of Flint, or Pebble-stones for Stables or Courtyards etc., may be done for 2d. halfpenny a superficial yard.

Bricklayers Work.

Walls of a Brick in length may be done for 2s. a rod.

Walls of a Brick and half may be done for 2s. 10d. a rod.

Partition walls a Brick in breadth, which are often used in low Houses, may be done for 1s. 6d. a rod.

Lathing, Tying, and pointing the Tyles may be done for 6*d.* a rod.

Plastering the insides of Brick, or Stone-walls, with Lime and Hair, two Coats, the one coarse, the other fine, may be done for 2*d.* a yard, but if plaistered with three coats the price is 3*d.* a yard.

Lathing and Plaistering for Ceiling-Staircases may be done for 4*d.* a yard.

N.B. Seven hundred bricks will make a rod of walling of a Brick thick; and so in proportion for every thickness.

In digging Foundations, the Price is according to the nature of the Earth: If upon a Rock it will cost 6*d.* a solid yard; but if upon a clay or other light soil, it may be done for 4*d.* a solid yard.

Carpenters Work.

Roofing for plain Tying, may be done for 6 shillings a square, i.e. one hundred square feet.

Flooring with Joyce and Dorments; and laying the Floors which is call'd Double measure, may be done for 12 shillings a square.

Single Posts and Rails for securing Quickwood may be done at 4*d.* a rod running measure.

Plain wainscotting, and making doors and windows may be done for 1*s.* 6*d.* a superficial yard.

Park paling eight foot high, with Posts and Rails, may be done for 12*d.* a yard running measure, or 7*s.* a rod.

Glaziers Work.

Common windows (with Newcastle or Sunderland Glass) the Glazier finding Glass, Lead and *all* other materials may be done for 5*d.* a foot.

Millwrights Work.

Because *overshot* watermills are become most general (especially in the Northern parts of England) and indeed do least hurt to the Publick (as they are generally placed), I shall in the first place give the Prices as performed by Mr. Ralph Fowler, millwright to the Right Honourable the Earl of Carlisle, at Castle-Howard in Yorkshire. If other Noblemen or Gentlemen are pleased to employ him, I am satisfied they will be faithfully served at reasonable rates.

For making a water-wheel, 4 pounds.

For making a cog-wheel, 2 pounds.

For making an axletree, 1 pound.

For flooring a pair of new mill stones, 2 pounds.

N.B. I have given these particulars in case of Repairs where any one is wanting to be made new.

An overshot watermill (and making all the utensils belonging) which takes water about the centre of the axletree, may be built for about 25 pounds, for the millwrights work only; as for the Roofing, etc., which comes under the head of Carpenters and masons work, 'tis already given in the foregoing pages.

A windmill (with all the utensils belonging) for grinding corn may be made for about 30 pounds, for the millwrights work only.

A horse mill for grinding malt and shelling oats may be made for about 8 pounds for millwrights work only.

Because the *blue* stones from Holland are become most general, they being cheaper, on the account of lasting 40 or 50 years, I shall give the Prices as they are commonly sold at the seaside upon the Northern Coasts, according to the several dimensions following:—

54 inches diameter	15 inches thick	@	£20	0	0	a pair
48 „ „	14 „	@	£15	0	0	„
46 „ „	13 „	@	£11	10	0	„
44 „ „	13 „	@	£10	10	0	„
40 „ „	12 „	@	£8	10	0	„

For the sake of such as are not willing to go to the price of the above-mentioned blue stones, it may not be amiss to give the prices of the *grey* stones, as they are sold at Bantrey in Yorkshire according to the several dimensions following—

20 hands diameter	@	£11	10	0	a pair
19 „ „	@	£10	0	0	„
18 „ „	@	£9	0	0	„
17 „ „	@	£8	0	0	„
16 „ „	@	£7	0	0	„
15 „ „	@	£6	0	0	„
14 „ „	@	£5	0	0	„

N.B. The Hand is $3\frac{5}{8}$ Inches.

Works relating to Husbandry.

Hedging, ditching, and planting double rows of whitethorn quicksets may be done for 3 pence a rod running measure.

N.B. 150 plants will plant a rod which will cost about 4 shillings a thousand, if raised from Berries which are much the best.

For plashing a Hedge in the best manner, and also ditching along the same may be done for 7*d.* a rod.

For digging a Ditch ten foot wide at top and six foot wide at the bottom, and four foot deep (which dimensions is commonly practised in the Marshes and Fenns) 2*s.* a rod.

Plowing the first time on a stiff clay stubble, may be done for 3*s.* 6*d.* an acre.

Plowing the second time the 'foresaid Land at 2*s.* 9*d.* an acre.

Plowing, harrowing and sowing the third time the 'foresaid Land at 3*s.* 9*d.* an acre.

Plowing the first time on a light gravelly Soil at 2*s.* 9*d.* an acre.

Plowing the second time of the 'foresaid Land at 2*s.* 4*d.* an acre.

Plowing, harrowing, and sowing the third time on the aforesaid Lands at 3*s.* per acre.

Plowing the first time on a light sandy soil at 2*s.* an acre.

Plowing the second time on the aforesaid Lands at 1*s.* 10*d.* an acre.

Plowing, harrowing and sowing the third time on ditto Lands at 2*s.* 6*d.* an acre.

Reaping and binding of Wheat and Rye may be done for 4*s.* an acre.

Mowing of Barley, Oates, and Cocking and raking with a sweath-rake at 3*s.* per acre.

Mowing, raking and cocking of Hay in meadows where tis pretty rank at 3*s.* an acre.

Mowing, raking and cocking of Hay in uplands where tis pretty thin at 2*s.* 6*d.* an acre.

Thrashing and winnowing of Wheat or Rye may be done for 2s. 8d. a quarter.

Thrashing and winnowing of Barley at 1s. 10d. a quarter.

Thrashing and winnowing of Oates at 1s. 6d. a quarter.

Thrashing and winnowing of Beans and Pease at 2s. a quarter.

X.

WAGES APPOINTED BY THE JUSTICES, TO BE TAKEN BY THE SERVANTS IN THE COUNTY OF KENT (AND GLOUCESTER) NOT EXCEEDING THE FOLLOWING SUMS.

Gentleman's Magazine, May 1732.

KENT.		GLOUCESTER.	
Head Ploughman, Wagoner,		Head servant in Husbandry .	£5
or Seedsman	£8	Second do.	£4
His mate	£4	Driving boy under 14 years .	£1
Best woman servant	£3	Head maidservant in dairy	
Second sort	£2	and Cook	£2 10/.

¹ The following accounts contain many errors, mostly unimportant, but whether of the original accountant, or of the copyist, I am unable to say. The MS. is printed practically in the same form as it was left by my father, but as the original has unfortunately been mislaid at Holkham the figures cannot be verified. Although this is to be deplored, it is none the less important that so interesting a document should be published.

XIV.

TABLE OF THE PRICES OF BANK STOCK.

THE regular quotations of this and other stocks by the papers begins in 1710, just when the Godolphin ministry was threatened. It is curious that when the stock was depressed before so seriously in 1705-6 the notices of its price are so few. In early days the dividends were paid very soon—a week or ten days—after the banks were shut. As time goes on the process takes from a month to six weeks.
